# The UK Parkinson's Audit
Transforming Parkinson's care

The Audit is the recognised quality improvement tool for the <u>UK Parkinson's Excellence Network</u>

Numbers of participating services are consistently rising

The next Audit will be in 2022 - allowing services to spend 2021 participating in service improvement projects
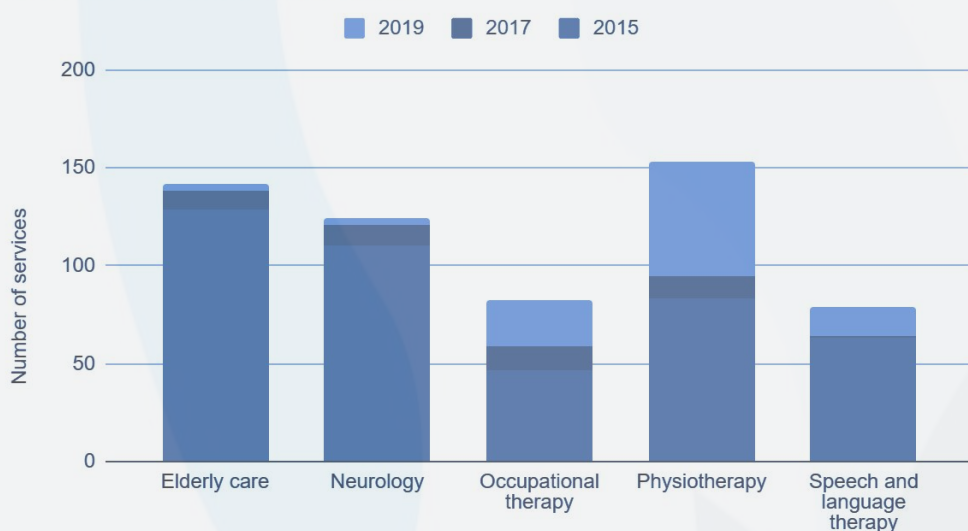

The Audit Cycle

1) Identify the issues
2) Obtain or define standards
3) Collect data
4) Compare performance with standards
5) Implement change
6) Re-audit

2021

UK wide service improvement projects

Bone health project

Parkinson's specific induction and support for new therapists

2019 participating services

Legend: 2019, 2017, 2015

Number of services (y-axis: 0, 50, 100, 150, 200)

Categories: Elderly care, Neurology, Occupational therapy, Physiotherapy, Speech and language therapy

These services provided data on the care provided to
10335 people with Parkinson's
8247 people shared their views in the Patient Reported Experience Measure (PREM)

We're assisting services to complete a Service Improvement Plan to address local issues

Service Improvement Team
